OVER 2000

MATH AND SCIENCE GAMES FOR GRADES K-8

Legends of Learning (www.legendsoflearning.com/districts/) employs original research to drive student performance through game-based learning. Our Netflix-style platform delivers a wide range of lessons and drives content proficiency for stronger subject mastery and student engagement.

BENEFITS FOR PARTNER SCHOOLS AND DISTRICTS

- **Test Prep Suite**
  Multi-Standard Assignments & Custom Assessments
- **Distance Learning Mode**
  Remote Tracking & Scheduling
- **Student Equity**
  Individualized Lessons, Student-Directed & Differentiated Learning
- **Blended-Learning**
  Group Rotation, Lab Simulations, & Flipped Classroom
- **Data Reporting**
  View Grades & Completion, Assess Progression to Mastery
- **Sharing of Lessons**
  Peer-to-Peer & Across District
- **Professional Development, Live Support & Dedicated Manager**

PEW RESEARCH FOUND
OVER **90%** OF SCHOOL-AGE KIDS

RESEARCH

Vanderbilt University published the seminal randomized controlled trial on game-based learning using Legends of Learning. With thousands of students across the country, the study showed a substantial increase in student engagement and significant efficacy:

- **Improved Test Scores:**
  Over half-letter grade better performance.
- **Faster Lesson Comprehension:**
  Students learned 5.5 weeks of content in 3 weeks.
- **Dramatic Engagement Increase:**
  Over one-third greater engagement.
- **Higher Achievement for Students with Special Needs:**
  Over one standard deviation improvement.

Follow-on studies in Texas, Georgia, and Virginia showed dramatic improvements on state tests.
